TECHNICAL

LANGUAGES - HTML, CSS, Sass, CSS Modules, JavaScript, TypeScript, PHP

FRAMEWORKS / LIBRARIES - React, Angular, jQuery

CMS - WordPress, WHMCS, phpBB, eCommerce platforms (Shopify, BigCommerce, Magento2, etc.)

TOOLS - Git, Vite, Webpack, GraphQL, Rest APIs, Cypress, Lighthouse, TanStack Query, ESLint

OTHER - Experienced with major web browsers, Windows, MacOS, VSCode, Chrome Dev Tools

EMPLOYMENT HISTORY

SEARCHSPRING - Senior Frontend Engineer and Team Lead from November 2014 to March 2026

- Engineered complex integrations using proprietary APIs/SDKs to build real-time search and discovery experiences for major global eCommerce brands
- Created mockups to demo product features when integrated on a client's eCommerce website
- Developed internal scaffolds (component libraries and templates) using Sass and React, reducing project implementation time
- Architected customer-facing "Snap Templates" using React, TypeScript, and CSS-in-JS (Emotion), enabling clients to build custom, high-conversion frontend experiences via modular themes
- Defined QA processes and participated in QAs (self and peer) before work is handed off to client
- Wrote customer-facing Knowledge Base articles, internal team documentation, and code snippets
- Led a Frontend engineering team, defining best practices for code quality, performance, and accessibility across the Professional Services organization
- Spearheaded the technical scoping for custom client requirements, directly contributing to regional revenue growth
- Utilized Cypress and Lighthouse testing to automate certain checks before merging GitHub branches into production
- Participated in "Early Access" programs to help develop and test new products
- Prior to open PTO policy, advocated for "Volunteer Time Off" which was approved and allowed for 16 separate hours devoted to volunteer work

- Helped to plan and advocate for the first Implementations Team Meet-up in 2023
- **TECHNOLOGIES** - HTML, CSS, Sass, JavaScript, JavaScript frameworks (jQuery, React, Angular), Git, TypeScript, CSS-in-JS

POWER PLANT MEDIA - Frontend Web Developer from October 2013 to September 2014

- Developed mobile-first, responsive WordPress and WooCommerce themes from scratch, focusing on speed and conversion
- Coded HTML email newsletters
- Built templates and themes for WordPress, WooCommerce, and WHMCS
- Created custom PHP plugins and content types to extend CMS functionality
- Implemented Schema.org markup and rich snippets to improve organic search visibility and click-through rates
- Performed cross-browser device testing
- **TECHNOLOGIES** - HTML, CSS, Sass, Compass, PHP, JavaScript, jQuery, Photoshop

DECENTRIX INC. - Graphic Designer and Frontend Web Developer from April 2013 to September 2013

- Designed and implemented website customizations for DISH authorized retailers
- Modernized legacy codebases to meet current web standards, improving cross-browser compatibility and page load speeds
- Performed daily maintenance on pages to keep code current with web standards as well as concise, simple, and effective
- Created graphic design for banners, home page sliders, image sprites, and buttons
- Wrote and proofread content for the web when necessary
- **TECHNOLOGIES** - HTML, CSS, JavaScript, jQuery, Photoshop, IntelliJ IDEA, Microsoft Office

AT&T - Implementation Specialist from April 2010 to April 2013

- Reviewed and analyzed project documents used to place content on att.com (logging and solving issues as a result)
- Implemented content using TeamSite and thoroughly checked each piece of content for errors in the process
- Participated in various clean-up efforts (reviewing files in TeamSite and website scrubs)
- Created new tools (JavaScript HTML character translator and invalid character checker)
- Involved in testing of new tools within AT&T
- QAed implementation work of team members
- **TECHNOLOGIES** - HTML, CSS, JavaScript, TeamSite, Microsoft Office, Wiki, SharePoint

HILTON WORLDWIDE - Web Analyst from November 2007 to April 2010

- Created special offers on hotel websites across all Hilton Worldwide brands (includes daily copywriting, proofreading, and HTML editing)
- Reviewed and published promotion built for brand websites (Hilton.com, Doubletree.com, etc.)

- Edited images and content for the web using CMS (TeamSite and MediaBin)
- Placed on various projects - Hampton Focus, imagery clean up, Trade Show attendance
- **TECHNOLOGIES** - HTML, CSS, JavaScript, Photoshop, Interwoven / TeamSite, MediaBin, Microsoft Office

VOLUNTEER AND CHARITY

FF7 FOR ST. JUDE - December 2020 to Current

- Assisted in organizing and managing a global charity event where Final Fantasy VII speed runners get together to raise money for St. Jude Children's Research Hospital
- Architected a real-time React dashboard for the event, integrating the Tiltify API to visualize live donation data and event milestones for thousands of concurrent users
- To date, we have raised \$53,607.61 for St. Jude

GIRLS IN TECH - COLORADO SPRINGS - November 2019 to November 2020

- Helped start Colorado Springs Girls in Tech chapter and first event
- Performed website updates for the chapter

BARKABULL DOG RESCUE - October 2018 to March 2019

- Fostered dogs until they were ready for adoption
- Cared for dogs by providing daily essential and medical needs
